
LGBT Vocab

LGBT Topics Course, Social Studies, History, & Any other Courses

9th to 12th Grade & College Classes

Overview

This lesson will be a LGBT vocab unit. The Students will be introduced to vocabulary that falls into the realm of the LGBT community.

Objectives

The objectives are to introduce vocabulary words to the students that are important to know not only for LGBT people, but also for everyone.

Activities

The activities will consist of an introduction to the LGBT vocab words and a test/quiz on them. Also, you can ask the students for any slang words they have heard for the LGBT community.

Also, you can incorporate the learning of the words by asking the students what they think the words' definitions are and then correct them if they are wrong.

Adaptations

As vocabulary and slang changes, so will the words that are used. So you will need to stay up to date on this, hence why you may need to ask about the slang each time you teach this lesson.

Evaluation

How the students do on the test or quiz.
